

2023 SOUTH CAROLINA QSO PARTY RULES (rev. 2/18/23)

1. Objective

For radio amateurs outside the state of South Carolina to contact as many South Carolina stations in as many of the 46 South Carolina counties as possible.

For radio amateurs within the state of South Carolina to contact as many stations as possible.

2. Contest Period

Begins at 1500Z on February 25th and ends at 0159Z on February 26th (11 hours total).

3. Bands

The SCQP shall be conducted on the 160, 80, 40, 20, 15, 10, and 6 meter bands only.

4. Modes

4.1. Phone

Use "PH" as the mode in the log header and on each contact.

4.2. CW

Use "CW" as the mode in the log header and on each contact.

4.3. Digital

For purposes of the contest, digital modes shall include RTTY, PSK, FT8, FT4 or other Digital modes. You may use "DG" or "RY" as the mode in the log header and on each contact.

4.4. Mixed

Phone, CW and/or Digital contacts are submitted as a single entry. Use "Mixed" as the mode in the log header, but log each contact by the actual mode used (e.g. PH, CW, or RY/DG).

5. Exchange

5.1. South Carolina Stations

Signal report and county abbreviation (see section 14 for county abbreviations).

5.2. USA Stations Outside South Carolina

Signal report and two-letter state abbreviation. **Note that Washington, D.C. is a multiplier for contest purposes.** Puerto Rico, USVI, Guam, and other US territories are considered DX for contest purposes.

5.3. Canadian Stations

Signal report and two-letter province/territory abbreviation.

5.4. DX Stations

Signal report and "DX" (not country).

6. Categories

6.1. Fixed

6.1.1. Single Operator

One person performs all operating and logging functions. Only one (1) transmitted signal on the air at any time. There are no limits on band changes.

6.1.2. Multi-Operator

Those obtaining assistance from another operator or logger. There are no limits on band changes.

6.1.2.1. Multi-Single

Only one (1) transmitted signal on the air at any time.

6.1.2.2. Multi-Multi

More than one (1) transmitted signal on the air at any time. Only one (1) transmitted signal per mode per band.

6.1.3. Fixed Location Definition

All logs submitted for scoring in the Fixed categories must originate from a single fixed location.

6.2. Mobile

6.2.1. Mobile Single

A single mobile or portable station that operates from at least two (2) different South Carolina counties and making at least one (1) contact from each county.

6.2.2. Mobile Multi-Operator

Same as the Mobile Single category but with multiple operators and/or multiple simultaneously operated stations in the vehicle/location.

NOTE: A mobile station may have a non-contest operating driver, for safety, and remain in the Single operator category. However, if the driver operates at any time in the contest, then that Mobile station shall be classified as Multi-Operator.

6.2.3. Expedition

One or more persons operating from a temporary, field-day type, stationary location using portable antennas and radios operating from one or more than one county. No permanent antenna structures may be used. Use of trees, buildings, etc., to raise antennas is allowed as long as it is safe to do so and not originally intended for that purpose. Mobile radios, equipment, and antennas installed in, on or attached to a vehicle wholly for mobile operation are not permitted to be used in this class. The vehicle may be used as part of the setup once stopped in the temporary location. All apparatus are to be located in the same location (within a 1000' diameter circle). Expedition stations that choose to move to a new county may work everyone again for QSO credit. If returning to a previously activated county, only new stations, respective of band and mode, not previously worked from there, may be counted as QSO credit. Expedition stations that operate from more than one county will receive multiplier bonus of one for each county.

EXPEDITION CATEGORY IS ONLY AVAILABLE FOR SOUTH CAROLINA STATIONS

7. Power

QRP: 5 watts or less.

Low: 100 watts or less.

High: Greater than 100 watts.

8. Entry Category

We utilize the Cabrillo v3 standards for Entry Category. It consists of three “header” items:

CATEGORY-MODE: The category-mode must be one of the following.

SSB | CW | DIGITAL | MIXED

CATEGORY-OPERATOR: The category-operator must be one of the following.

SINGLE-OP | MULTI-OP | CHECKLOG

CATEGORY-POWER: The category-power must be one of the following.

HIGH | LOW | QRP

CATEGORY-STATION: The category-station must be one of the following.

FIXED | MOBILE (EXPEDITION stations use “MOBILE” in Cabrillo log header.)

CATEGORY-TRANSMITTER: The category-transmitter is required for multi-operator entries and must be one of the following.

ONE | TWO | UNLIMITED

9. Scoring

Stations may be worked ONCE per BAND and MODE for QSO Points. For QSOs with SC Mobiles, also per county. There is no partial contact credit.

9.1. QSO Points

9.1.1. PHONE (South Carolina Stations)

Each completed and valid PHONE contact with other South Carolina stations shall count as two (2) points. Each completed and valid phone contact with stations outside of South Carolina shall count as four (4) points.

9.1.2. CW or DIGITAL (South Carolina Stations)

Each completed and valid CW/ Digital contact with other South Carolina stations shall count as two (2) points. Each completed and valid CW/DIGITAL contact with stations outside of South Carolina shall count as four (4) points. Note that for contest purposes, FT8, FT4, PSK, RTTY, JT65 or other digital modes shall be considered equivalent. Thus a FT8/4 and RTTY contact on the same band with the same station is considered a dupe.

9.1.3. PHONE (All Out-Of-State Stations)

Each completed and valid PHONE contact with South Carolina stations shall count as two (2) points.

9.1.4. CW or DIGITAL (All Out-Of-State Stations)

Each completed and valid CW or Digital contact with South Carolina stations shall count as two (2) points. Note that for contest purposes, FT8, FT4, PSK, RTTY, JT65 or other digital modes shall be considered equivalent. Thus a FT8 and RTTY contact on the same band with the same station is considered a dupe.

9.2. Multipliers

Multipliers are counted **ONCE PER MODE (NOT per band)**.

9.2.1. SC Stations

1. Each South Carolina county - 46 total
2. Each USA state including South Carolina and Washington, D.C. When logging other SC stations, enter the SC County as the exchange (**not** SC).
3. Each Canadian Province/Territory.
4. DX contacts count for QSO points only. Enter DX for the exchange.

9.2.2. SC Mobile/Expedition Stations

1. Each South Carolina county - 46 total
2. Each USA state including South Carolina and Washington, D.C. When logging other SC stations, enter the SC County as the exchange (**not** SC).
3. Each SC county activated. At least one (1) QSO must be made from a county in order for it count as activated.
4. Each Canadian Province/Territory.
5. DX contacts count for QSO points only. Enter DX for the exchange.

9.2.3. Non-SC Stations

1. Each SC county, 46 total.
2. SC Mobile stations, when they change counties, may be worked as a new station.

9.3. Bonus Stations

Bonus Stations may be worked ONCE per BAND per MODE for bonus points. You may work a bonus station more than once per band per mode for additional QSO points and multipliers. You can work mobile Bonus Stations when the mobile station changes counties.

Example: You can work WW4SF/CHAR, WW4SF/GVIL, WW4SF/JASP and WW4SF/HORR on 40m CW, but only the first contact with WW4SF on 40m CW will qualify for Bonus Station points. Likewise for all three modes.

250 points - W4CAE (Columbia Amateur Radio Club Station)

250 points - WW4SF (Swamp Fox Contest Group Club Station)

Bonus Stations will be operated by approved club members during the SCQP. All Bonus Station operators will adhere to the "Bonus Station Operator's Guidelines" which will be provided to each operator prior to the event.

9.4. Final Score

Total QSO Points x Multipliers + Bonus Station Points

9.5. Invalid Contacts

Stations outside of South Carolina may not count contacts with non-South Carolina stations or DX stations for contest credit or multipliers.

10. Awards

10.1. Category Awards

A certificate will be issued lieu of a tangible award (plaque, etc) in cases where there is no award sponsor. ***A minimum of 50 valid contacts is required to qualify for a category award.***

In-State - Single Op, Single Transmitter

Mixed - High, Low, QRP
 CW - High, Low, QRP
 Phone - High, Low, QRP
 Digital – High, Low, QRP

Out-Of-State - Single Op, Single Transmitter

Mixed - High, Low, QRP
 CW - High, Low, QRP
 Phone - High, Low, QRP
 Digital – High, Low, QRP

In-State - Multi-Op, Single Transmitter

Mixed - High, Low, QRP
 CW - High, Low, QRP
 Phone - High, Low, QRP
 Digital – High, Low, QRP

Out-Of-State - Multi-Op, Single Transmitter

Mixed - High, Low, QRP
 CW - High, Low, QRP
 Phone - High, Low, QRP
 Digital – High, Low, QRP

In-State - Multi-Op, Multi Transmitter

Mixed - High, Low, QRP
 CW - High, Low, QRP
 Phone - High, Low, QRP
 Digital – High, Low, QRP

Out-of-State - Multi-Op, Multi Transmitter

Mixed - High, Low, QRP
 CW - High, Low, QRP
 Phone - High, Low, QRP
 Digital – High, Low, QRP

In-State – Mobile (based upon total score regardless of mode)

Single Operator – No Driver
 Single Operator – With Driver (driver does not participate as an operator)
 Multi-Operator – One Transmitter
 Multi-Operator – Two or more Transmitters

In-State – Expedition (based upon total score regardless of mode/power)

Single Operator
 Multi-Operator

Additional prizes may be awarded at the discretion of the SCQP Committee.

11. Suggested Frequencies

SSB: 1.865, 3.810, 7.190, 14.250, 21.300, 28.450, and 50.135

CW: 1.815, 3.540, 7.040, 14.040, 21.040, 28.040, and 50.095

12. Miscellaneous

- A transmitter used to contact one or more stations may not subsequently be used under any other callsign during the contest. There are two exceptions. First is for family stations where more than one callsign is assigned and the operator is changed when the callsign is changed. Second is a transmitter used with a Bonus Station call sign may be operated under a different callsign when it is not being used as a Bonus Station.
- Out-Of-State stations working from multiple states must submit separate logs for each state. Each state score stands alone and is not consolidated with other state operations.
- Any stations operated remotely should be entered using the location of the transmitter/antenna, not the operator location.
- “County-line” contacts must be logged as separate contacts.
- Use of spotting assistance including packet clusters, reverse beacon networks, CW Skimmer, APRS telemetry, etc. is permitted in all categories. *‘Self-spotting’ is also permitted.*

13. Logs

Entries must be submitted within 14 days of the end of the contest (March 12, 2023). The SCQP will only accept log files submitted via our website. We are no longer accepting paper logs for this contest.

Visit www.scqso.com and click on the “Log Submission” menu item. Log files must be submitted in Cabrillo (.log or .cbr) formatted file.
